

RCIED JAMMER

20Mhz – 2.6Ghz

The KJ-AV8 is of the latest technology to VIP convoys against the threat of radio controlled improvised explosive devices.

It is the top of the range unit covering the frequency band of 20Mhz through to 2600Mhz with no gaps.

The main control unit of the RCIED Jammer is fitted in the vehicle boot while the magnetically mounted antennas are simply attached to the roof.

The unit is powered from the vehicle battery and has a remote operator control panel for use in the passenger compartment

Technical Specifications

Operational Frequency	20- 2600Mhz
Radiated Power Output (average)	>40W
Continuous Operation	Unlimited
Operation Temperature	-20 – 55 Degree C
Dimensions	528x528x138mm
Weight	34Kg
